Summary

Ambitious and science enthusiast PhD student in mathematics. I tend to push my limits and improve myself about theoretical&applied math.

Education

Galatasaray University *2019-2024*

B.S in Mathematics

Elective Courses: Representation Theory | Ideals, Varieties and Algorithms | Topological Data Analysis | Algebraic Geometry | Introduction to Mathematical Modeling and Simulation | Rings and Modules | Applied Math | Machine Learning

***GPA**: 3.79/4 (with **First-rank**)*

Sabanci University *2024-2026*

MSc in Mathematics

***Advisor:** Prof. Ferruh Özbudak*

Sabanci University *2026-Now*

PhD in Mathematics

***Advisor:** Prof. Ferruh Özbudak*

Scholarships

Türk Eğitim Vakfı(TEV) *2020-2024*

Undergraduate scholarship

Sabanci University *2024-2026*

Full Scholarship (supported by TÜBİTAK)

Sabanci University *2026-Now*

Full Scholarship

Publications

THE THIRD GENERALIZED COVERING RADIUS FOR BINARY PRIMITIVE DOUBLE-ERROR-CORRECTING BCH CODES

(with Ferruh Özbudak) Finite Fields and Their Applications (published, https://doi.org/10.1016/j.ffa.2025.102749)

ON THE SECOND GENERALIZED COVERING RADIUS FOR BINARY PRIMITIVE TRIPLE-ERROR-CORRECTING BCH CODES

(with Ferruh Özbudak) Designs, Codes and Cryptography (published, https://doi.org/10.1007/s10623-026-01903-0)

Working Experience

Math Tutor - Freelance *2019-Now*

I've been teaching mathematics to children, adolescents and university students to support their academic succes.

Research Assistant at Galatasaray University *February 2026 - August 2026*

I work as a research assistant in the Department of Mathematics.

Teaching

Linear Algebra *Fall 2024*

Teaching Assistant at Sabancı University

Introduction to Algebra *Spring 2025*

Teaching Assistant at Sabancı University

Linear Algebra *Fall 2025*

Teaching Assistant at Sabancı University

Linear Algebra *Spring 2026*

Research Assistant at Galatasaray University, leading recitation sessions for Linear Algebra

Linear Algebra *Fall 2026*
Teaching Assistant at Sabancı University

Conferences and Workshops

Workshop on Codes, Orthogonal Arrays and Related Areas *October 2025*
Sabancı University, Istanbul, Türkiye

ANTS XVII – Seventeenth Algorithmic Number Theory Symposium *July 2026*
University of Groningen, Groningen, The Netherlands

Extracurricular Activities

Direct Reading Project (DRP Turkey) *Summer 2023*
Experience on reading, researching and making presentation about root systems.

Link and Video

Undergraduate Thesis *Summer 2024*
My undergraduate thesis focuses on the algebraic representation of neural networks.
